
A Message from GH on coronavirus COVID-19 Update 24-03-2020

In support of the Government's latest announcement (23 March 2020) on the UK's response to the coronavirus (COVID-19) pandemic; GH has now changed their position to further protect our staff, clients and contractors in accordance with the latest advice.

We will now operate our service in accordance with our 'Out of Hours' Emergency Service whereby; we are now only reacting to repairs of an emergency nature.

All other services will continue by remote working which is now available to all our staff who are all fully contactable by phone and email although at this time, not in person.

Our contractors continue to carry out 'key' services such as alarm testing and have issued statements accordingly on how they are managing the situation and the additional precautionary measures they are taking whilst they wait for more specific advice to be issued.

We are also waiting for further advice and guidance from the government and ARMA for essential contracted service management throughout this period of restriction and will continue to keep you updated as this advice is given.

We know that these are worrying times and you may have anxieties. Please rest assured that GH is doing everything possible to protect its staff, clients and anyone that may be affected by our business, whilst maintaining our service and that of the contracted services at your development. However, if you have any concerns at all, please don't hesitate to get in contact with us, we're here to help.

We thank you for your continued understanding of the situation and support to our business throughout these times.

We will continue to provide updates as often as possible as events progress.

Stay safe.
