

A close-up, slightly out-of-focus photograph of a mouse's face, showing its whiskers, eye, and ear. The mouse is light brown with darker fur around its eye.

How to...

Deal with pests

**GH
Property
Management**

The Right Choice.

At GH Property Management Services Limited we understand that the presence of pests in dwellings can have a huge impact on lives of inhabitants.

This guide will provide you with top tips to support you in the preventions and control of infestation in and around your home.

Signs of an Infestation

- Droppings
- Gnawing marks on materials such as wood, carpets, paper, furniture
- Stripped electrical wiring
- Smears left on surfaces from the rodents' greasy fur

Prevention and management

- Keep bin stores clean and tidy, keep bin lids closed and cover compost heaps
- Seal holes and cracks bigger than 15mm, especially around drains
- Deny Mice and Rats access to food in or around your home
- Keep your garden tidy and free of items that pests would like to feed on or inhabit
- Use a bird table or feeder basket if possible, try not to put out excessive feed

Please be aware that GH Property Management is only responsible for infestation located or caused within the communal areas or structure of the building. Infestations that originate within the leaseholder's property are the responsibility of the leaseholder.

Please report new sightings to
GH Property Management.
